PHILLIP FRANCIS

phillipmfrancis93@yahoo.com | Philadelphia, Pennsylvannia 19120

Summary

Reliable and punctual Software Developer with experience in a team environment. With skills in CSS, JavaScript, Node.js, and a few other languages. My experience with companies like Cintas and Fedex has shown me the importance a single employee has in the success of a company. Which motivates me to be the best I can be for the overall success of not only myself but also the people around me.

Skills

- Node.js
- PostgreSQL
- CSS
- HTML5
- JavaScript

- Python
- Express.js
- Github
- React.js

Experience

Warehouse Associate | Cintas - Philadelphia, Pennsylvannia | 01/2018 - 03/2020

- Helped team efforts by backing up fellow warehouse workers in managing incoming and outgoing products.
- Processed incoming trucks, working to unload, stage, and store merchandise smoothly.
- Processed new stock by inputting information into system and adding labels.

Education and Training

Digitalcrafts | Atlanta, GA | 06/2021

Software Development

Immersive Full-stack Engineering bootcamp covering a multitude of languages including HTML, CSS, JS and others like Python. We also were taught server side languages like Postgres, Express, Node and frameworks like React/Redux also Bootstrap.

Projects

Tweeter The Twitter Clone, https://github.com/kjburdette/Tweeter

- Made with HTML5, CSS, JavaScript, Postgres, Node and hosted on Supabase
- This was a group project where I was tasked to handle the backend of our Twitter Clone The site stores login information and also makes posts based on the input the user submits
- With more time we wanted to add comments and a trending page based on likes

City-Livin, https://github.com/Phillip215/Phillip215.github.io

- Made with HTML5, CSS, JavaScript and uses Restful Apis
- This was a solo frontend project where I decided to make a website that gives you information on life in different cities
- It has rankings on day to day life on one page while on another you can find upcoming events in a city near you
- With more time I wanted to finish my third page which only shows random photo's of scenery when I originally wanted it to be scenery based on the city the user searched
